Sheetal Gupta, Patterson Belknap's Chief Information Officer, is responsible for leading the Firm's information technology function and ensuring that the Firm's information technology strategy is cohesive with the overall Firm strategy. She collaborates with Firm leadership to ensure that we are driving maximum value from our technology investments, while continually looking to innovative technology solutions that can improve our colleagues' and clients' experience.

Ms. Gupta is an experienced senior technology executive with a track record of successfully building and leading technology organizations, while delivering complex large-scale transformational initiatives.

Most recently, she held information technology leadership positions at a large international management consulting firm. In addition to her core role, she was also a founding Board member for the company's Women In Technology (WIT) initiative.
